To
ThoughtWorks
Hyderabad,IN

Presently a Data Engineer with more than 4 years of hands-on experience in building Data Pipelines for various Business domains.

Here are a few ways I believe I fit the role:

- Designed, implemented, and supported data ingestion and consumption pipelines for enterprise-scale datasets.
- Communicated with internal and external clients to understand business needs and provided analytical solutions.
- I have proven myself to be a highly motivated data engineer with the ability to remain focused in high stress environments.

I am convinced that my commitment to meeting clients expectations and the ability to function as an integral part of a team would allow me to make a valuable contribution to the tradition of excellence at ThoughtWorks. A challenging environment such as yours will give me the opportunity to make the best use of my skills and experience as a data engineer.

I would welcome the opportunity to interview for this position and discuss how I can fulfill your requirements. Please contact me via phone or email to arrange a mutually convenient time and date for us to meet.

Thank you in advance for your time and consideration.

Sincerely,
Rishabh Chaudha
